# ***COE-C1001: Statics***

## ***6. About the exam***

*Luc St-Pierre*

# Midterm exam

**When:** Monday, November 16, 16.00-19.00.

**Where:** on MyCourses (Assignments - Exam Statics). Upload your solution by 19.20.

**What you can use:** you can use all your notes, books, or anything else, except your friends/colleagues. You will need a calculator.

The midterm exam is covering all the static part of the course.

# Practice exam

- I have added a practice exam on myCourses (under Materials).
- The solution is also included.

About the real midterm exam:

- There will be 5 problems to solve in 3 hours.
- Include free-body diagrams and make sure your solution is clear.
- Make sure your final answer includes the correct units.
- You will get some points if your method is correct but there is an error in the final answer.
